Do You Own 4% Liberty Bonds?

If so, you can convert them into Liberty Bonds bearing 41/4% interest

provided you act before November 9, 1918

After November 9 all conversion privileges lapse on bonds of the Second Liberty Loan and on bonds of the First Liberty Loan that have already been converted to 4% bonds.

If you convert these bonds now, you get 1/4% more interest each year. The interest dates of the converted bonds and the date when they will be paid off remain unchanged and the tax exemption features are the same.

There is no advantage, therefore, in keeping your bonds in their present form, while if you convert them there is the advantage of the additional interest plus the further advantage that they will be accepted in payment of Federal inheritance taxes.

Any bank will arrange without charge to convert your 4% Liberty Bonds into 41/4% Liberty Bonds-

but your bonds must be in the hands of the Federal Reserve Bank on or before November 9
